Now in our 25th Year of successfully supplying quality windows, doors and conservatories

Spring 2018

2018

It's our 25th birthday year and we just want to say a big thank you for your support over the last 25 years.

Over these years we have seen a lot and have made a lot of changes, keeping up to date with new product introduction and ever changing accreditations and building regulations.

We've improved, evolved and exhibited; we've grown, gained new factory units and greeted new customers; we've reviewed, researched and re-branded. And now we look forward to facing new challenges throughout the next 25 years.

The one thing that hasn't changed over the 25 years, however, is our commitment to provide our customers with industry leading products at the highest quality and specification. This is something that will never change.

Deceuninck's Slider 24 Patio Door System now available from Climatec

NEW SLIDING DOORS FOR CLIMATEC & ALU-TEC

deceuninck Slider24

Climatec have now started to fabricate their own uPVC patio doors, using Deceuninck's Slider24 system.

The unique design uses a robust profile that can withstand extreme loads and boasts 'best in class' for weather performance. It is also the most secure sliding patio door on the market, certified to the latest enhance security standard PAS24 and accredited as Secured By Design, a police preferred product.

The Slider24 patio doors are available in 2, 3 and 4 pane configurations on a durable stainless steel track. There is also the option to have a low threshold for easy access and to comply with building regulations, Part M.

Furthermore these patio doors come with a choice of 26 colour options, including woodgrain foils from Deceuninck's Heritage range.

The Deceuninck Slider24 brochure and dedicated order form is now available to download from the Information Centre on our website.

KEY FEATURES

- Robust profile construction designed to withstand extreme loads
- Best in Class weather performance, air and water tightness up to 3 times better than the competition
- Certified to the PAS24 standard
- Secured by Design approved
- Available in a vast array of profile colour options, all from UK stock
- Aluminium interlock fitted as standard
- Sturdy clip-fit trim fixings
- Part M compliant low threshold

- ❖ Beautiful authentic 'wood like' finish
- ❖ Extremely durable
- ❖ 10 year manufacturer's guarantee
- ❖ Each colour has its own matching ancillaries, trims and accessories

NEW SLIDING DOORS FOR CLIMATEC & ALU-TEC

Looking for a Premium Lift and Slide aluminium door that opens and closes effortlessly?

The Climatec Group's aluminium company, Alu-tec UK Ltd are now manufacturing Aluk's 'Lift & Slide' door in addition to their current patio door system.

Using Aluk's Optio BSC94 system, this new sliding door is a high performing and stunningly designed option that is ideal to provide a modern and stylish look to any home.

The Lift & Slide premium door is available in a variety of sliding configurations, using double and triple track systems. The Optio BSC94 offers high levels of performance including thermal UValues of 1.5w/m2K for triple glazed (1.7w/m2K double glazed) and panel weights up to 400kg. Smooth operation is guaranteed through the use of the highest quality fittings.

Aluk door systems are engineered to integrate seamlessly with their window systems range and provide unrivalled safety, security and installation simplicity.

Contact Alu-tec for more details on their aluminium collection T: 01702 899440 E: group@alu-tec.co.uk

OPTIO BSC94 LIFT & SLIDE DOOR SYSTEM

- ❖ Available as Inline Sliding
- ❖ Slimmer 45mm interlock sightline option
- ❖ Multiple sliding configurations
- ❖ Available in single and dual colour; anodised finishes also available
- ❖ Range of hardware and security features.

CONFIGURATIONS

- One Panel Sliding
- Two Panel Sliding
- Three Panel Sliding
- Four Panel Sliding
- Fixed Panels
- Double or Triple Track

NEW Accreditations

The Climatec Group have updated their product accreditations and have achieved the BSI Kitemark on our full product range.

Before our windows and doors can be BSI Kitemark™ approved, we have had to prove they have earned the title.

This means our upvc and aluminium products had to be independently tested at the BSI laboratory of excellence against tough industry standards. This is a process that we will have to undertake on an annual basis; every year we resubmit samples to make sure that they still perform and won't let you down.

The BSI Kitemark is a truly independent quality mark which has been recognized and valued for over 100 years. It is adopted industry-wide by those manufacturers who are committed to offering only products which meet the highest standards.

The Climatec Group BSI Certification

BS7412 - PVCu Window Fabricator

BS4873 - Aluminium Window Fabricator

BS7412/PAS24 - Enhanced Security PVCu Doors Fabricator

BS4873/PAS24 - Enhanced Security Aluminium Door Fabricator

BS7412/PAS24 - Enhanced Security PVCu Windows Fabricator

BS4873/PAS24 - Enhanced Security Aluminium Window Fabricator

The Enhanced Security certifications have also been approved by police approved body Secured By Design, so our products have been updated and certified where relevant. For full details of our Secured By Design products, visit www.securedbydesign.com and search for Climatec.

NEW Window Handles

Following the introduction of the Newbury and Reeded lever/lever door handles in the last issue of Vista, we can now offer the window handles to match.

These slimline casement window handles are made from solid unlaquered brass or bronze which achieves a timeless elegance. The Reeded is a narrow style window espag handle with stylish reeded end detail and the newbury handle is a simple subtle design that will suit any setting.

REEDED

NEWBURY

Left and right handed, the handle is cranked away from the frame to allow ease of use. Suitable for use internally or externally and are available in Aged Brass, Polished Nickel, Polished Chrome or Aged Bronze finishes.

The Reeded and Newbury join our collection of traditionally styled handles, details of which can be found in the Hardware section of our website.

Product Update

As part of Solidor's continuous improvement program, they have made a slight change to the 'Reflections' glass unit. This change has been made in order to supply you with a product of superior quality.

It should be noted however that there will be a slight difference in the obscurity level between the existing and the new Reflections unit (see image right).

Existing Reflections glass unit

New and Improved Reflections glass unit
