

SUSTAINABILITY - ENERGY EFFICIENCY - RECYCLABILITY

It is becoming more and more important to make green choices, and when you purchase your uPVC windows and doors from us, you can be confident you are! Our uPVC windows and doors are sustainable and environmentally friendly.

Improvements throughout the window industry means that windows & doors installed today could last up to 30 years with minimal maintenance - and then they can be recycled.

ENERGY EFFICIENT

- Designed for thermal efficiency
- Keeps heat in, lowering energy consumption
- Reduce carbon emissions into the atmosphere

RECYCLABLE

- uPVC is fully recyclable
- Waste is reduced by recycling windows and doors at the end of their lifespan
- Waste from manufacturing is collected and recycled

LONG LASTING

- Durable and weather resistant
- Low maintenance, no rot or rust
- Can last up to 30 years with proper care
